

Shri Shivaji Mahavidyalaya, Barshi

Perspective/Strategic Plan of the Institution (2019-2024)

The strategic plan is important because it provides a baseline for specifying the institution's future direction, priority setting, program development, resource allocation, and evaluation. The fundamental purpose of strategic planning in higher education is to provide an ongoing process of examination and evaluation of an institution's strengths, weaknesses, goals, resource requirements and future prospects, and to set out a coherent plan to respond to the findings and build a stronger, more effective institution. To achieve and maintain competitiveness in an increasingly challenging global environment, higher education institutions must learn how to translate their academic excellence into added value and employment opportunities. Strategic planning provides the tools and processes for developing a map that clearly charts organizational goals and pathways for achieving them. Institutional strategy also gives confidence about future institutional directions to stakeholders such as industry, employers, alumni, research partners.
